| Ultimate Goal - i | s to get a yelp f | or salon and spa | | | | |
|--------------------|-------------------|----------------------------|--------------------------------|----------------------------------------|--------------------------------------------------------------------------------------|--------------------------|
| | | t having to call the place | | | | |
| | | | | | | |
| | | | Contact Us Si | ign Up My Account | So here we will use 2 API's | |
| SALON & | SPA | | | | | |
| 5/ 12011 Q | J. 7. | | | | 1. Map API from google - I have used this before its easy | |
| Search (haircut) | Location | | | | | |
| Search (haircut) | Location | | | | 2. Appointment system - | |
| 1. Dlace 1 | | 20 mil | Google Maps A | \DI | https://admin.timekit.io/a/apps/student-8322/shortcuts | |
| 1. Place 1 **** | | 20 mil | | | TACUC | |
| | | \$\$\$ | - to locate the | | TASKS: | |
| Address | | | < Mo¹ Map □ | Redo search when map moved | Khoi is really good at CSS and HTML - so he can work on that | part |
| Phone No | | | | CHOTE 32 1 32 - | Becky and I can work on javascript and API | |
| Haircut = | \$35 | | + 4 + Ex-Granada - Miram | | | |
| | | | - Miram | ar | Project Requirement | What we are using |
| 2. Place 2 | | 11 mil | Willalli | 92 | Must use at leasttwo APIs | mentioned aboved |
| **** | | \$\$\$ | Half Moon Bay | (92) | Must useAJAX to pull data | Yes |
| Address | | | Moon | | •Must utilize at least onenew library or technologythat we haven't discussed | MYSQL |
| Phone No | | | Bay | 51 | Must have apolished frontend / UI | YES |
| | | | | Aalf | Must meetgood quality coding standards(indentation, scoping, naming) | |
| Haircut = | \$35 | | | Moon Bay | •MustNOT use alerts, confirms, or prompts(look intomodals!) | |
| | | | | | •Must have some sort ofrepeating element(table, columns, etc) | |
| 3. Place 3 | | 10 mil | | | Must useBootstrap or Alternative CSS Framework | KHOI decides |
| **** | | \$\$\$ | | | •Must beDeployed(Github Pages) | YES |
| Address | | | George | 3 1 le Terms of Use Report a map error | •Must haveUser Input Validation | Sign Up page |
| Phone No | | | Ads by Google | ie Terms of Ose Report a map error | •Utilize Firebase for Persistent Data Storage (Consider this basically a requirement | .). |
| | | | Ans no Gnorne | | Mobile Responsive | MEDIA QUERIES/ BOOTSTRAP |
| Haircut = | \$35 | | | | •Use an alternative CSS framework like Materialize | |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| PAGE 2 - after a | place has been o | clicked | | | | |
| SALON & | SPA | | | | | |
| Search (haircut) | Location | | | | | |
| - (| | <u></u> | | | | |
| 1. Place 1 | | 20 mil | Google Maps A | API | | |
| **** | | \$\$\$ | - to locate the | | | |

| SERVICES: | |
|---------------------------|---------------------|
| Haircut (Women) = | \$35 |
| Haircut (Men) = | \$35 |
| Haircut (Kids) = | \$35 |
| TOTAL = | \$100 |
